Index for Volume 56 (1986) Including the Centennial Issue (C.I.), April 1985

This index is composed of three subindexes: I: Bibliographical Index, II. Author Index, and III. Topic Index.

Entries in the bibliographical index have been indexed by the last name of the author, or in the case of multiple authors by the last name of the first author. Reference information includes the name(s) of the author(s), title of the article, and the volume number and pages on which the article may be found.

The author index cites the name of each author included in the volume, followed by the volume number and pages of the article. In cases where the cited author is not the first author of the article, the first author is cited in parentheses, so that the article may then be located in the bibliographic index if desired.

In the topic index, each article is listed under those important subjects about which the article provides information. The article title with volume and page numbers is also given.

I. Bibliographic Index

Ayen, Thomas and Montoye, Henry J. Body Size Adjustment for Oxygen Requirement in Treadmill Walking. 1, 82–84.

Bachman, John C. Generality vs. Specificity of an Extension Power Measurement of the Arms and Legs. 3, 220–222.

Beehler, Pamela J. Hoyes and Kamen, Gary. Fractionated Reaction Time Responses to Auditory and Electrocutaneous Stimuli. 4, 298–307.

Bennett, Bruce L. This Is Our Heritage: 1960–1985. C.I., 102–120.

Beran, Janice A. Playing to the Right Drummer: Girls Basketball in Iowa, 1892–1927. C.I., 78–85.

Book Reviews. 2, 182; 3, 268–272; 4, 343–348.

Brown, Rebecca D. and Harrison, Joyce M. The Effects of a Strength Training Program on the Strength and Self-Concept of Two Female Age Groups. 4, 315–320.

Bruno, James E. Scoring Bias in Springboard and Platform Diving: A Bayesian Approach to Revision of DD Tables. 1, 16–22.

Bundgaard, Axel. Tom Brown Abroad: Athletics in Selected New England Public Schools, 1850–1910. C.I., 28–37.

Capel, Susan A. Psychological and Organizational Factors Related to Burnout in Athletic Trainers. 4, 321–328.

Chromiak, Joseph A. and Stone, Michael H. Alterations in Strength and Maximal Oxygen Uptake Consequent to Nautilus Circuit Weight Training. 3, 338–339.

Clarke, David H. Sex Differences in Strength and Fatigability. 2, 144–149.

Clarkson, Priscilla M.; James, Robert; Watkins, Andrea; and Foley, Peter. The Effects of Auditory Feedback on Foot Pronation During Barre Exercise in Dance. 1, 33–40.

Crawford, Michael E. and Griffin, Norma Sue. Testing the Validity of the Griffin/Keogh Model for Movement Confidence by Analyzing Self-Report Playground Involvement Decisions of Elementary School Children. 1, 8–15.

Croucher, John S. The Conditional Probability of Winning Games of Tennis. 1, 23–26.

Davidson, James D. and Templin, Thomas J. Determinants of Success Among Professional Golfers. 1, 60–67.

Franks, Don B. and Huck, Schuyler. Why Does Everyone Use the .05 Significance Level? 3, 245–249.

Frederick, E. C.; Howley, E.T.; and Powers, S.K. Lower Oxygen Demands of Running in Soft-Soled Shoes. 2, 174–177.

Gallagher, Jere Dee and Thomas, Jerry R. Developmental Effects of Grouping and Recoding on Learning a Movement Series. 2, 117–127.

Gallemore, Sandra L. Factors Leading to the Formation of the National Section on Dance, Forerunner of the National Dance Association: 1885–1932. C.I., 86–92.

Glassow, Ruth B. Clark Hetherington—Efforts to Initiate a University Major. C.I., 56–63.

Godin, Gaston and Shephard, Roy J. Psychosocial Factors Influencing Intentions to Exercise of Young Students from Grades 7 to 9. 1, 41–52.

Goldberger, Michael and Gerney, Philip. The Effects of Direct Teaching Styles on Motor Skill Acquisition of Fifth Grade Children. 3, 215–219.

Goode, Sinah and Magill, Richard A. The Contextual Interference Effects in the Learning of Three Badminton Serves. 4, 308–314.

Gray, Judith A. and Howe, Dianne. Margaret H'Doubler: A

Profile of Her Formative Years, 1898–1921. C.I., 93–101.

Hardy, Lew and Jones, David. Dynamic Flexibility and Proprioceptive Neuromuscular Facilitation. 2, 150–153.

Hart, Barbara A.; Hasbrook, Cynthia A.; and Mathes, Sharon A. An Examination of the Reduction in the Number of Female Interscholastic Coaches. 1, 68–77.

Hetzler, Ronald K.; Knowlton, Ronald G.; Kaminsky, Leonard A.; and Kamimori, Gary H. Effect of Warm-up on Plasma Free Fatty Acid Responses and Substrate Utilization During Submaximal Exercise. 3, 223–228.

Heyward, Vivian H.; Johannes-Ellis, Sandra M.; and Romer, Jacki F. Gender Differences in Strength. 2, 154–159.

Hoshizaki, Thomas B. and Massey, B. H. Relationships of Muscular Endurance Among Specific Muscle Groups for Continuous and Intermittent Static Contractions. 3, 229–235.

Hult, Joan S. The Governance of Athletics for Girls and Women: Leadership by Women Physical Educators, 1899–1949. C.I., 64–77.

Jackson, Allen W. and Baker, Alice A. The Relationship of the Sit and Reach Test to Criterion Measures of Hamstring and Back Flexibility in Young Females. 3, 183–186.

Landers, Daniel M.; Boutcher, Stephen H.; and Wang, Min Q. A Psychobiological Study of Archery Performance. 3, 236–244.

Liu, Y. King. Dialogue: Comments on "Theoretical Modeling of Grip Firmness During Ball-Racket Impact." 2, 178–179.

Magill, Richard A. and Wood, Carol A. Knowledge of Results Precision as a Learning Variable in Motor Skill Acquisition. 2, 170–173.

McClenaghan, Bruce A. and Williams, Harriet. Design of an Automated System to Quantify Dynamic Stability. 1, 78–81.

Wood, Carol A. 2, 170–173. (Magill)
Wood, Terry M. 1, 27–32. (Safrit)

III. Topic Index

AAHPERD Health Related Fitness Test. Generalizability of the AAHPERD Health Related Skinfold Test. 3, 187–195.

AAHPERD Health Related Fitness Test. The Relationship of the Sit and Reach Test to Criterion Measures of Hamstring and Back Flexibility in Young Females. 3, 183–186.

Age differences. Developmental Effects of Grouping and Recoding on Learning a Movement Series. 2, 117–127.

Age-role. Older Adults' Perceptions of Physical Activity Participation Based on Age-role and Sex-role Appropriateness. 2, 167–169.

American Alliance for Health, Physical Education, Recreation, and Dance. This Is Our Heritage: 1960–1985. C.I., 102–120.

American military. Sport and the American Military: Diversion and Duty. C.I., 38–45.

Archery. A Psychobiological Study of Archery Performance. 3, 236–244.

Athletes. Relationships Among Skinfold Measures of Lower Torso and Abdominal Fat in Athletes. 4, 334–337.

Athletes, black, history of. From Plantation to Playing Field: Historical Writings on the Black Athlete in American Sport. 2, 101–116.

Athletic trainers. Psychological and Organizational Factors Related to Burnout in Athletic Trainers. 4, 321–328.

Athletics. The Governance of Athletics for Girls and Women: Leadership by Women Physical Educators, 1899–1949. C.I., 64–77.

Athletics. Tom Brown Abroad: Athletics in Selected New England Public Schools, 1850–1910. C.I., 28–37.

Auditory stimuli. Fractionated Reaction Time Responses to Auditory and Electrocutaneous Stimuli. 4, 298–307.

Automated system. Design of an Automated System to Quantify Dynamic Stability. 1, 78–81.

Badminton. The Contextual Interference Effects in the Learning of Three Badminton Serves. 4, 308–314.

Baer, Clara Gregory. Clara Gregory Baer: Harbinger of Southern PHysical Eduction, C.I., 46–55.
Ballistic stretching techniques. Dynamic Flexibility and Proprioceptive Neuromuscular Facilitation. 2, 150–153.
Ball-racket impact. Comments on "Theoretical Modeling of Grip Firmness During Ball-Racket Impact" and Reply. 2, 178–181.
Basketball. Playing to the Right Drummer: Girls Basketball in Iowa, 1892–1927. C.I., 78–85.
Batting performance. Mechanics of Batting: Effect of Stride Technique on Ground Reaction Forces and Bat Velocities. 4, 329–333.
Biokinetic swim bench. Generality vs. Specificity of an Extension Power Measurement of the Arms and Legs. 3, 220–222.
Black athletes. From Plantation to Playing Field: Historical Writings on the Black Athlete in American Sport. 2, 101–116.
Body composition. Gender Differences in Strength. 2, 154–159.
Body fat measurement. Relationships Among Skinfold Measures of Lower Torso and Abdominal Fat in Athletes. 4, 334–337.
Burnout. Psychological and Organizational Factors Related to Burnout in Athletic Trainers. 4, 321–328.

Cardiac dimensions. Cardiac Dimensions in Elite Young Track Athletes. 2, 139–143.
Circuit weight training. Dialogue: Alterations in Strength and Maximal Oxygen Uptake Consequent to Nautilus Circuit Weight Training. 4, 338–342.
Coaches. An Examination of the Reduction in the Number of Female Interscholastic Coaches. 1, 68–77.
Coaching. Differential Effects of Sex and Status on Evaluation of Coaching Ability. 1, 53–59.
Contextual interference. The Contextual Interference Effects in the Learning of Three Badminton Serves. 4, 308–314.
Contractions, static. Relationships of Muscular Endurance among Specific Muscle Groups for Continuous and Intermittent Static Contractions. 3, 229–235.

Dance. The Effects of Auditory Feedback on Foot Pronation During Barre Exercise in Dance. 1, 33–40.
Dance. Factors Leading to the Formation of the National Section on Dance, Forerunner of the National Dance Association: 1885–1932. C.I., 86–92.
Dance. Margaret H'Doubler: A Profile of Her Formative Years, 1898–1921. C.I., 93–101.
Diving. Scoring Bias in Springboard and Platform Diving: A Bayesian Approach to Revision of DD Tables. 1, 16–22.

Echocardiography. Cardiac Dimensions in Elite Young Track Athletes. 2, 139–143.
Electrocutaneous stimuli. Fractionated Reaction Time Responses to Auditory and Electrocutaneous Stimuli. 4, 298–307.
Endurance. Relationships of Muscular Endurance among Specific Muscle Groups for Continuous and Intermittent Static Contractions. 3, 229–235.
Energy metabolism. Effect of Warm-up on Plasma Free Fatty Acid Responses and Substrate Utilization during Submaximal Exercise. 3, 223–228.
Exercise. Psychosocial Factors Influencing Intentions to Exercise of Young Students from Grades 7 to 9. 1, 41–52.
Extension power. Generality vs. Specificity of an Extension Power Measurement of the Arms and Legs. 3, 220–222.
Eye fixation. Visual Observation Patterns of Tennis Teachers. 3, 254–259.

Fat, subcutaneous. Two Assessments of Upper-Extremity Subcutaneous Fat in Young Children. 3, 265–267.
Fatigue. Sex Differences in Strength and Fatigability. 2, 144–149.
Feedback. The Effects of Auditory Feedback on Foot Pronation During Barre Exercise in Dance. 1, 33–40.
Female. An Examination of the Reduction in the Number of Female Interscholastic Coaches. 1, 68–77.
Fitness. The Health-Related Physical Fitness Test: A Tri-State Survey of Users and Non-Users. 1, 27–32.
Fitness, health related. The Relationship of the Sit and Reach Test to Criterion Measures of Hamstring and Back Flexibility in Young Females. 3, 183–186.
Fitness testing. Generalizability of the AAHPERD Health Related Skinfold Test. 3, 187–195.
Flexibility. Dynamic Flexibility and Proprioceptive Neuromuscular Facilitation. 2, 150–153.
Flexibility. The Relationship of the Sit and Reach Test to Criterion Measures of Hamstring and Back Flexibility in Young Females. 3, 183–186.
Free fatty acids. Effect of Warm-up on Plasma Free Fatty Acid Responses and Substrate Utilization during Submaximal Exercise. 3, 223–228.

Gender differences. Gender Differences in Children's Throwing Performance: Biology and Environment. 4, 280–286.
Gender differences. See Sex differences.
Generality. Generality vs. Specificity of an Extension Power Measurement of the Arms and Legs. 3, 220–222.
Generalizability. The Generalizability Effectiveness of a Learning Strategy on Achievement in Related Closed Motor Skills, 3, 205–214.
Generalizability. Generalizability of the AAHPERD Health Related Skinfold Test. 3, 187–195.
Golf. Determinants of Success among Professional Golfers. 1, 60–67.
Growth and development. Testing the Validity of the Griffin/Keogh Model for Movement Confidence by Analyzing Self-Report Playground Involvement Decisions of Elementary School Children. 1, 8–15.
Gymnastics. The Resequencing Task: Determining Expert-Novice Differences in the Organization of a Movement Sequence. 3, 260–264.

Hetherington, Clark. Clark Hetherington—Efforts to Initiate a University Major. C.I., 56–63.

Instructional variables. Differential Effects of Three Teachers Over a Unit of Instruction. 2, 132–138.

Knowledge of results. Knowledge of Results Precision as a Learning Variable in Motor Skill Acquisition. 2, 170–173.

Learning. The Generalizability Effectiveness of a Learning Strategy on Achievement in Related Closed Motor Skills, 3, 205–214.

Learning variables. Knowledge of Results Precision as a Learning Variable in Motor Skill Acquisition. 2, 170–173.

Maximal oxygen uptake. The Estimation of VO2max from Maximal and Submaximal Measurements in Males, Age 10–39. 3, 250–253.

Measurement and evaluation. The Health-Related Physical Fitness Test: A Tri-State Survey of Users and Non-Users. 1, 27–32.

Memory of movement. Developmental Effects of Grouping and Recoding on Learning a Movement Series. 2, 117–127.

Meta-Analysis. The Use of Meta-Analysis in Exercise and Sport: A Tutorial. 3, 196–204.

Meta-analysis model. The Validity Generalization Model: An Approach to the Analysis of Validity Studies in Physical Education. 4, 288–297.

Methodology, research. The Use of Meta-Analysis in Exercise and Sport: A Tutorial. 3, 196–204.

Methodology, research. The Validity Generalization Model: An Approach to the Analysis of Validity Studies in Physical Education. 4, 288–297.

Methodology, research. Why Does Everyone Use the .05 Significance Level? 3, 245–249.

Motor performance. Gender Differences in Children's Throwing Performance: Biology and Environment. 4, 280–286.

Motor learning. The Contextual Interference Effects in the Learning of Three Badminton Serves. 4, 308–314.

Motor programming. Movement Duration, Fractionated Reaction Time, and Response Programming. 2, 128–131.

Motor skill acquisition. The Effects of Direct Teaching Styles on Motor Skill Acquisition of Fifth Grade Children. 3, 215–219.

Motor skills, closed. The Generalizability Effectiveness of a Learning Strategy on Achievement in Related Closed Motor Skills, 3, 205–214.

Movement confidence. Testing the Validity of the Griffin/Keogh Model for Movement Confidence by Analyzing Self-Report Playground Involvement Decisions of Elementary School Children. 1, 8–15.

Movement duration. Movement Duration, Fractionated Reaction Time, and Response Programming. 2, 128–131.

Movement patterns. The Resequencing Task: Determining Expert-Novice Differences in the Organization of a Movement Sequence. 3, 260–264.

Muscle groups. Relationships of Muscular Endurance among Specific Muscle Groups for Continuous and Intermittent Static Contractions. 3, 229–235.

Muscular strength. Muscular Strength in Man: Has It Changed in the Last Century? C.I., 21–24.

Null hypothesis. Why Does Everyone Use the .05 Significance Level? 3, 245–249.

Observation. Visual Observation Patterns of Tennis Teachers. 3, 254–259.

Older adults. Older Adults' Perceptions of Physical Activity Participation Based on Age-role and Sex-role Appropriateness. 2, 167–169.

Organization of information. Developmental Effects of Grouping and Recoding on Learning a Movement Series. 2, 117–127.

Oxygen demands. Lower Oxygen Demands of Running in Soft-soled Shoes. 2, 174–177.

Oxygen requirement. Body Size Adjustment for Oxygen Requirement in Treadmill Walking. 1, 82–84.

Perceived exertion. Effects of Altered Stride Lengths on Ratings of Perceived Exertion During Running. 4, 273–279.

Personality traits. Temperament Characteristics of Individuals Who Participate in Strenuous Sports. 2, 160–166.

Physical education, history. Science, Service, and the Professionalization of Physical Education, 1885–1905. C.I., 7–20.

Physical education programs, college. Clark Hetherington—Efforts to Initiate a University Major. C.I., 56–63.

Physical education programs, women. Clara Gregory Baer: Harbinger of Southern Physical Education. C.I., 46–55.

Probability. The Conditional Probability of Winning Games of Tennis. 1, 23–26.

Professionalism. Science, Service, and the Professionalization of Phyusical Education, 1885–1905. C.I., 7–20.

Proprioceptive neuromuscular facilitiation. Dynamic Flexibility and Proprioceptive Neuromuscular Facilitation. 2, 150–153.

Psychobiological assessment. A Psychobiological Study of Archery Performance. 3, 236–244.

Psychological factors. Psychological and Organizational Factors Related to Burnout in Athletic Trainers. 4, 321–328.

Psychosocial factors. Psychosocial Factors Influencing Intentions to Exercise of Young Students from Grades 7 to 9. 1, 41–52.

Reaction time. Fractionated Reaction Time Responses to Auditory and Electrocutaneous Stimuli. 4, 298–307.

Reaction time. Movement Duration, Fractionated Reaction Time, and Response Programming. 2, 128–131.

Research, quality of. Research Quarterly for Exercise and Sport Survey. 2, 91–100.

Resequencing. The Resequencing Task: Determining Expert-Novice Differences in the Organization of a Movement Sequence. 3, 260–264.

Review process. Research Quarterly for Exercise and Sport Survey. 2, 91–100.

Running. Effect of Warm-up on Plasma Free Fatty Acid Responses and Substrate Utilization during Submaximal Exercise. 3, 223–228.

Running. Effects of Altered Stride Lengths on Ratings of Perceived Exertion During Running. 4, 273–279.

Running. Lower Oxygen Demands of Running in Soft-soled Shoes. 2, 174–177.
Running, sprint and distance. Cardiac Dimensions in Elite Young Track Athletes. 2, 139–143.

Section editor format. Research Quarterly for Exercise and Sport Survey. 2, 91–100.
Self-Concept. The Effects of a Strength Training Program on the Strength and Self-Concept of Two Female Groups. 4, 315–320.
Serial organization. The Resequencing Task: Determining Expert-Novice Differences in the Organization of a Movement Sequence. 3, 260–264.
Sex differences. Gender Differences in Strength. 2, 154–159.
Sex differences. Sex Differences in Strength and Fatigability. 2, 144–149.
Sex-role. Older Adults' Perceptions of Physical Activity Participation Based on Age-role and Sex-role Appropriateness. 2, 167–169.
Significance level. Why Does Everyone Use the .05 Significance Level? 3, 245–249.
Sit and reach test. The Relationship of the Sit and Reach Test to Criterion Measures of Hamstring and Back Flexibility in Young Females. 3, 183–186.
Skills learning. Differential Effects of Three Teachers Over a Unit of Instruction. 2, 132–138.
Skills learning. Knowledge of Results Precision as a Learning Variable in Motor Skill Acquisition. 2, 170–173.
Skinfold assessment. The Accuracy of Two Training Methods of Skinfold Assessment. 1, 85–90.
Skinfold assessment. Generalizability of the AAHPERD Health Related Skinfold Test. 3, 187–195.
Skinfold measures. Relationships Among Skinfold Measures of Lower Torso and Abdominal Fat in Athletes. 4, 334–337.
Specificity. Generality vs. Specificity of an Extension Power Measurement of the Arms and Legs. 3, 220–222.
Sport, history of. From Plantation to Playing Field: Historical Writings on the Black Athlete in American Sport. 2, 101–116.
Sports participation. Temperament Characteristics of Individuals Who Participate in Strenuous Sports. 2, 160–166.
Stability. Design of an Automated System to Quantify Dynamic Stability. 1, 78–81.
Stimulus intensity. Fractionated Reaction Time Responses to Auditory and Electrocutaneous Stimuli. 4, 298–307.
Strength. Dialogue: Alterations in Strength and Maximal Oxygen Uptake Consequent to Nautilus Circuit Weight Training. 4, 338–342.
Strength. Gender Differences in Strength. 2, 154–159.
Strength. Sex Differences in Strength and Fatigability. 2, 144–149.
Strength training. The Effects of a Strength Training Program on the Strength and Self-Concept of Two Female Groups. 4, 315–320.
Stride length. Effects of Altered Stride Lengths on Ratings of Perceived Exertion During Running. 4, 273–279.
Stride techniques. Mechanics of Batting: Effect of Stride Technique on Ground Reaction Forces and Bat Velocities. 4, 329–333.
Submaximal testing. The Estimation of VO2max from Maximal and Submaximal Measurements in Males, Age 10–39. 3, 250–253.

Teaching behavior. Visual Observation Patterns of Tennis Teachers. 3, 254–259.
Teaching process. Differential Effects of Three Teachers Over a Unit of Instruction. 2, 132–138.
Teaching styles. The Effects of Direct Teaching Styles on Motor Skill Acquisition of Fifth Grade Children. 3, 215–219.
Temperament framework. Temperament Characteristics of Individuals Who Participate in Strenuous Sports. 2, 160–166.
Tennis. The Conditional Probability of Winning Games of Tennis. 1, 23–26.
Tennis. Visual Observation Patterns of Tennis Teachers. 3, 254–259.
Throwing. Gender Differences in Children's Throwing Performance: Biology and Environment. 4, 280–286.
Training methods. The Accuracy of Two Training Methods of Skinfold Assessment. 1, 85–90.
Treadmill. Body Size Adjustment for Oxygen Requirement in Treadmill Walking. 1, 82–84.
Treadmill. Kinematic Accommodation of Novice Treadmill Runners. 1, 1–7.
Treadmill testing. The Estimation of VO2max from Maximal and Submaximal Measurements in Males, Age 10–39. 3, 250–253.

Ultrasound, diagnostic. Two Assessments of Upper-Extremity Subcutaneous Fat in Young Children. 3, 265–267.

Validity, concurrent. The Validity Generalization Model: An Approach to the Analysis of Validity Studies in Physical Education. 4, 288–297.
Validity generalization model. The Validity Generalization Model: An Approach to the Analysis of Validity Studies in Physical Education. 4, 288–297.

Warm-up. Effect of Warm-up on Plasma Free Fatty Acid Responses and Substrate Utilization during Submaximal Exercise. 3, 223–228.
Women, middle-aged. The Effects of a Strength Training Program on the Strength and Self-Concept of Two Female Groups. 4, 315–320.
